

Anuscha Van Niekerk

Governess

Qualified Educator (Bachelors Foundation Phase) with hands-on experience in delivering a full curriculum across all subjects to a Grade 5 learner in a private homeschooling setting alongside Jaco Van Dyk, Instructional designer and co-educator. Experienced in extending academic learning beyond the classroom through cultural excursions, museum visits, and experiential education to support international, travel based learning.

Adaptable and resilient, with a strong record of supporting a child's academic and emotional development, including additional learning needs such as ADHD, dyslexia, and autism. Passionate about education that combines academic rigor with real world discovery. Warm, dependable, and known for building strong rapport with both children and parents.

I am applying alongside my partner, Jaco van Dyk, an instructional designer and homeschool co-educator, as a Homeschool Teaching Couple. Over the past three years, we have come to love the homeschooling environment and the memorable trips we share with the children. We are excited about our next adventure with a new family. Educator (B.Ed, Foundation Phase) with hands-on experience in delivering a full curriculum across all subjects to a Grade 5 learner in a private homeschooling setting. Experienced in extending academic learning beyond the classroom through cultural excursions, museum visits, and experiential education to support international, travel based learning. Adaptable and resilient, with a strong record of supporting a child's academic and emotional development, including additional learning needs such as ADHD, dyslexia, and autism.

- **Counselling & Child Psychology**, Udemy, 2019
- **TEFL Certificate**, The TEFL Academy, 2018

CORE COMPETENCIES

• Curriculum & assessment

Lesson planning alongside Jaco for all subjects and educational app content. I use my knowledge in educational psychology, learning styles, and inclusive teaching approaches, to structure lessons and choose appropriate resources. We record lessons for sick-days or important lessons to re-watch later. Assessing progress to determine areas that need to be more challenged and foster areas of talent.

• Pastoral care & household

Experience in working with children who have different learning needs (ADHD, dyslexia, autism). Current experience include ongoing specialist liaison, following a steady routine and attending appointments, all handled with discretion.

LANGUAGES

- English, Fluent
- Afrikaans, Fluent
- French, Learning
- Mandarin, Beginner

Available upon request.

WORK EXPERIENCE

Homeschool Educator & Governess | Private family household, May 2023 - Present

- Academic responsibility for a young boy's full homeschooling curriculum: planning, delivery, assessment and pacing alongside Jaco Van Dyk.
- Weekly and term planning, progress tracking and reporting to parents. Keep a daily journal of lessons taught.
- Museum, theatre and cultural excursions designed to enrich learners knowledge with visual and physical examples and experiences. Expense records and a year plan of academic work and events.
- Work alongside my partner Jaco Van Dyk as a teaching couple: we design the lesson and plan the content; he teaches the practical parts of each subject (science experiments, physical education, investigations, projects, technology education). I use the knowledge acquired from my Bachelor's in Teaching to adapt lessons and teach theory subjects.
- House and pet sitting for family when they are away. Taking children on outings including restaurants, theatre, carnivals, racing tracks and hikes. Occasional cleaning and organizing of household.

Homeschool & Classroom Educator (ages 5- 14) | "The Beacon" Academy & Aftercare; Shine Academy, 2019 - April 2023

- Educated learners across mixed ages from 5 to 14 in home school and small group settings, including children who struggled in mainstream classrooms.
- Planned and delivered individualised lessons with targeted academic support and ongoing progress assessment.
- Built a personal library of book reports, essay writing frameworks, and mathematics teaching models, refined over time and adaptable across different curricula and contexts.
- Carried full academic responsibility for a homeschooled learner's curriculum, including planning, delivery, assessment, and pacing.
- Assisted learners with daily homework and learning support through play based teaching methods, building confidence in children who found mainstream schooling difficult.
