PROFILE

Qualified private homeschooling educator and governess with a Bachelor of Education (Foundation Phase). I independently plan, deliver and assess a full CAPS-aligned homeschool curriculum - weekly and term planning, pacing, progress tracking and reporting to parents. I currently hold sole academic responsibility for a Grade 5 learner's entire academic progression (in my care since age nine), including additional learning needs. I adapt to a visual learner who thrives on repetition, discussion and experiment. Museums, theatre and culture continue the morning's work in the afternoon. Highly discreet, organised and calm under pressure.
